Central Vermont Public Service Corporation; Notice of Availability of Environmental Assessment

March 13, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the Central Vermont Public Service

Corporation's application for an original license to continue operating the existing, unlicensed Carver Falls Hydropower Project, located on the Poultry River in the town of Hampton, Washington County, New York, and the town of West Haven, Rutland County, Vermont. Subsequently, the Commission's staff prepared an Environmental Assessment (EA).

In the EA, staff evaluates the potential environmental impacts that would result from the continued operation of the project. Staff concludes that licensing the project with appropriate enhancement measures would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference and Files Maintenance Branch, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

For further information, please contact Jim Haimes, Environmental Coordinator, at (202) 219-2780.
